II. OTHER ACTIVITIES

25X1A8B a. On 18 May I received a telephone call from [REDACTED],
25X1A8B Deputy Chief, FI/[REDACTED], concerning certain remarks made about [REDACTED] by
25X1A8B an "unidentified" instructor in the OFC during the recently com-
25X1A9A pleted running of the course. [REDACTED] was considerably exercised
25X1A9A at what he called "sniping" at [REDACTED] by OTR instructors. The remark
25X1A8B in question according to [REDACTED] was: "OSI has had to do things
25X1A9A which they are not supposed to do because FI/[REDACTED] isn't doing what
25X1A9A it is supposed to do." I immediately called [REDACTED] and directed
25X1A9A him to query [REDACTED] concerning this situation. I then recalled
25X1A9A that Miss [REDACTED] had informed me that [REDACTED] of OSI was enrolled
25X1A9A in OFC in preparation for his assignment in [REDACTED] as OSI repre-
25X1A9A sentative. Miss [REDACTED] arranged to have [REDACTED] come over to see us,
25X1A8B and upon questioning he remembered the statement clearly as having
25X1A9A been made in the course of an organizational lecture. He told us
25X1A8B that the lecture was well organized, well presented, and to his
25X1A9A personal knowledge quite accurate in content. He stated that the
25X1A8B instructor, [REDACTED], had pointed out to the class that be-
25X1A9A cause FI/[REDACTED], as a very small organization with an ever increasing
25X1A9A preoccupation with R&D in cooperation with TSS and with operational
25X1A9A responsibility for an ever growing number of international scienti-
25X1A9A fic conferences, is finding it almost impossible to perform its
25X1A9A chartered function of acting as liaison between the clandestine
25X1A9A services and the various scientific components of the Agency and
25X1A9A the intelligence community at large. As a result of this, OSI is
25X1A9A finding it necessary, in order to accomplish its own mission, to
25X1A9A accept direct liaison with various elements of the clandestine
25X1A9A services' operating divisions. [REDACTED] states that this is absolutely
25X1A9A true and is in no way derogatory to FI/[REDACTED]. By return call
25X1A9A [REDACTED] confirmed that what [REDACTED] had stated was the case. I

asked [REDACTED] to bring to Washington on 19 May a copy of the lecture outline which I will give to [REDACTED] with my comment that we have complete confidence in the integrity of [REDACTED] and that in my view his informant is lifting lecture material out of context and misinterpreting it. I did not inform [REDACTED] that [REDACTED] had told us that the only person in the class who took exception to the statement that FI [REDACTED] is overcommitted was a student named [REDACTED] of EE Division who is going to

[REDACTED] as a scientific operations case officer. On 20 May [REDACTED] talked to me again stating that the statements contained in the lecture outline were factual but that the entire story was not told. I offered to have [REDACTED] come to headquarters to talk with him and his colleagues, and [REDACTED] agreed that this would be a good idea. [REDACTED] will come to Washington within the next few days. This episode points up the dangers inherent in giving objective presentations concerning the clandestine services and emphasizes my continuing amazement that we have had so few repercussions of this nature.
